

EMERGENCY PESTICIDE USE

To: Parents or guardians of students and staff of Warren Hills Regional Middle School

From: IPM Coordinator: Anthony Sbriscia, Director of Facilities **Phone Number:** 908-689-3143, ext. 1054

Subject: **Emergency Pesticide Use Notification**

This notice is to advise you that the following non low impact pesticide was used at Warren Hills Regional High School:

| | | |
|-------------------------|-------------------|--|
| Pesticide common name | Cyfluthrin, Cyano | |
| Pesticide trade name | Tempo 1% Dust | |
| EPA registration number | 432-1373 | |

Location of the pesticide application: Outside Room 210 window

The date and time the outdoor application took place: September 20, 2016 at 2:00 pm

Reason for the pesticide application: Yellow jacket infestation

Description of the problem and the factors that qualified the problem as an emergency that threatened the health or safety of a student or staff member:

Insects have been observed outside the school building next to the areas noted above.

If applicable, description of steps to be taken to avoid emergency use of pesticides for this problem in the future: After treatment and verification of effectiveness will caulk openings in walls that allowed entry. Will also inspect balance of building and repair as required.

Description of the possible adverse effects of the pesticide(s) as per the Material Safety Data Sheets for the pesticide(s) to be used, if available:

Slight skin irritation, mild eye irritation

Pesticide product label instructions and precautions related to Public Safety:

Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or clothing.

Note: *As required by law, we must advise you: "The Office of Pesticide Programs of the United States Environmental Protection Agency has stated: "Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure."*
