Robert Cacchio, Assistant Principal

September 2019

Dear Parents,

Welcome to a new school year filled with exciting new learning experiences and opportunities; we are off to a great start!

Contained in this mailing is the NJSLA (New Jersey Student Learning Assessment) results from the 2018- 2019 school year. Please take a moment and review the results with your child as this is the piece of their progress as a student. If you have any questions about reading your child's school, please visit <https://www.warrenhills.org/domain/552>, (Our District → State Assessments). Finally, additional resources to help support your child can be found on the NJDOE Office of Assessments webpage.

The NJSLA scores are only a piece of our students' achievement. As a district, we use these results and other forms of assessments to make adjustments to our programs and our curriculum. If you have any questions, please do not hesitate to contact me.

We look forward to partnering with you this year to ensure the success of all of our students. As a community, we can achieve great things.

Best,

Nicholas Remondelli

Principal
Warren Hills Regional Middle School
